

HYBRID and CONNECTED SOLUTIONS with Hi,Comfort

Hi, Comfort

Hi, Comfort

YOUR HOME COMFORT
UNDER CONTROL,
WHEREVER YOU ARE

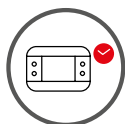

Hi, Comfort T300

Hi, Comfort, Riello's platform of IoT solutions, is now enriched with advanced room control **Hi, Comfort T300**.

The **new control**, featuring a stylish and modern design, in addition to remote comfort management via App, integrates advanced functions, up to the **management of a hybrid system from App, wherever you are.**

Hi, Comfort T300, THE FEATURES

CHRONO-THERMOSTAT

Hi, Comfort T300 operates as a chrono-thermostat and allows you to set heating and cooling time schedule for a proper balance between comfort and consumption.

MANAGER FOR HYBRID SYSTEMS

Efficient management of multiple energy sources; Hi, Comfort T300 is the real brain of the system, managing boilers, heat pumps and solar thermal.

REMOTE CONTROL VIA APP

Maximum flexibility: with the use of Hi, Comfort App, home comfort will always be within reach of the smartphone.

ROOM CONTROL

The Hi, Comfort T200 thermostat, combined in RF with the Hi, Comfort T300, allows optimal control of comfort within each room.

IMMEDIATE AND SIMPLE USE

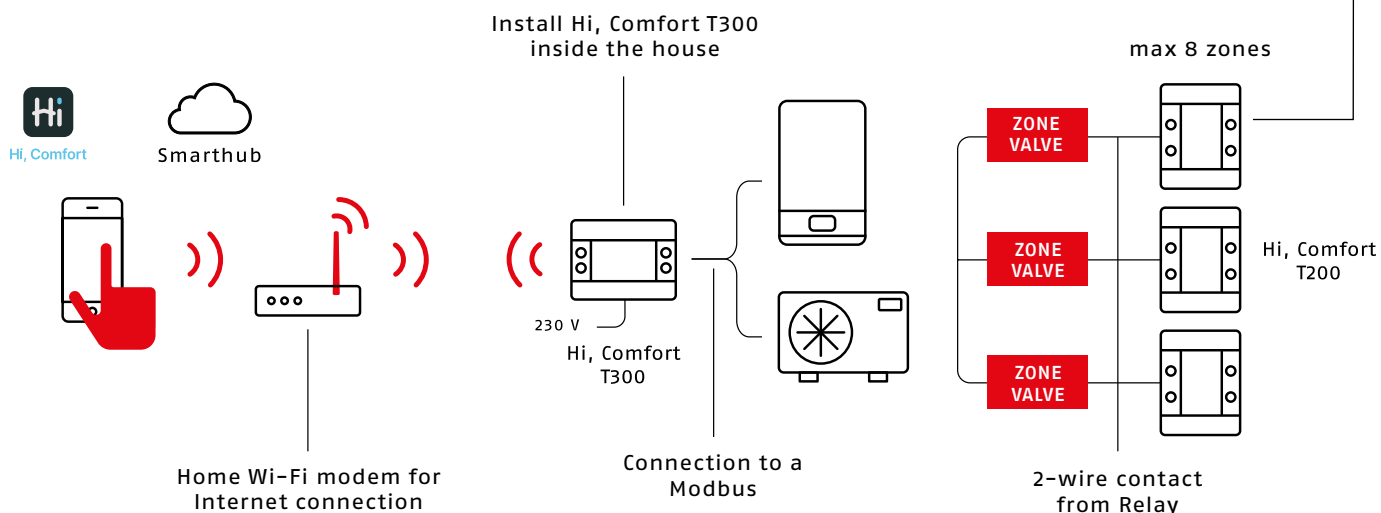

Excellent user experience on the chrono-thermostat and App, thanks to renewed graphics and a menu tree that follows the tradition of previous Riello controls.

T200

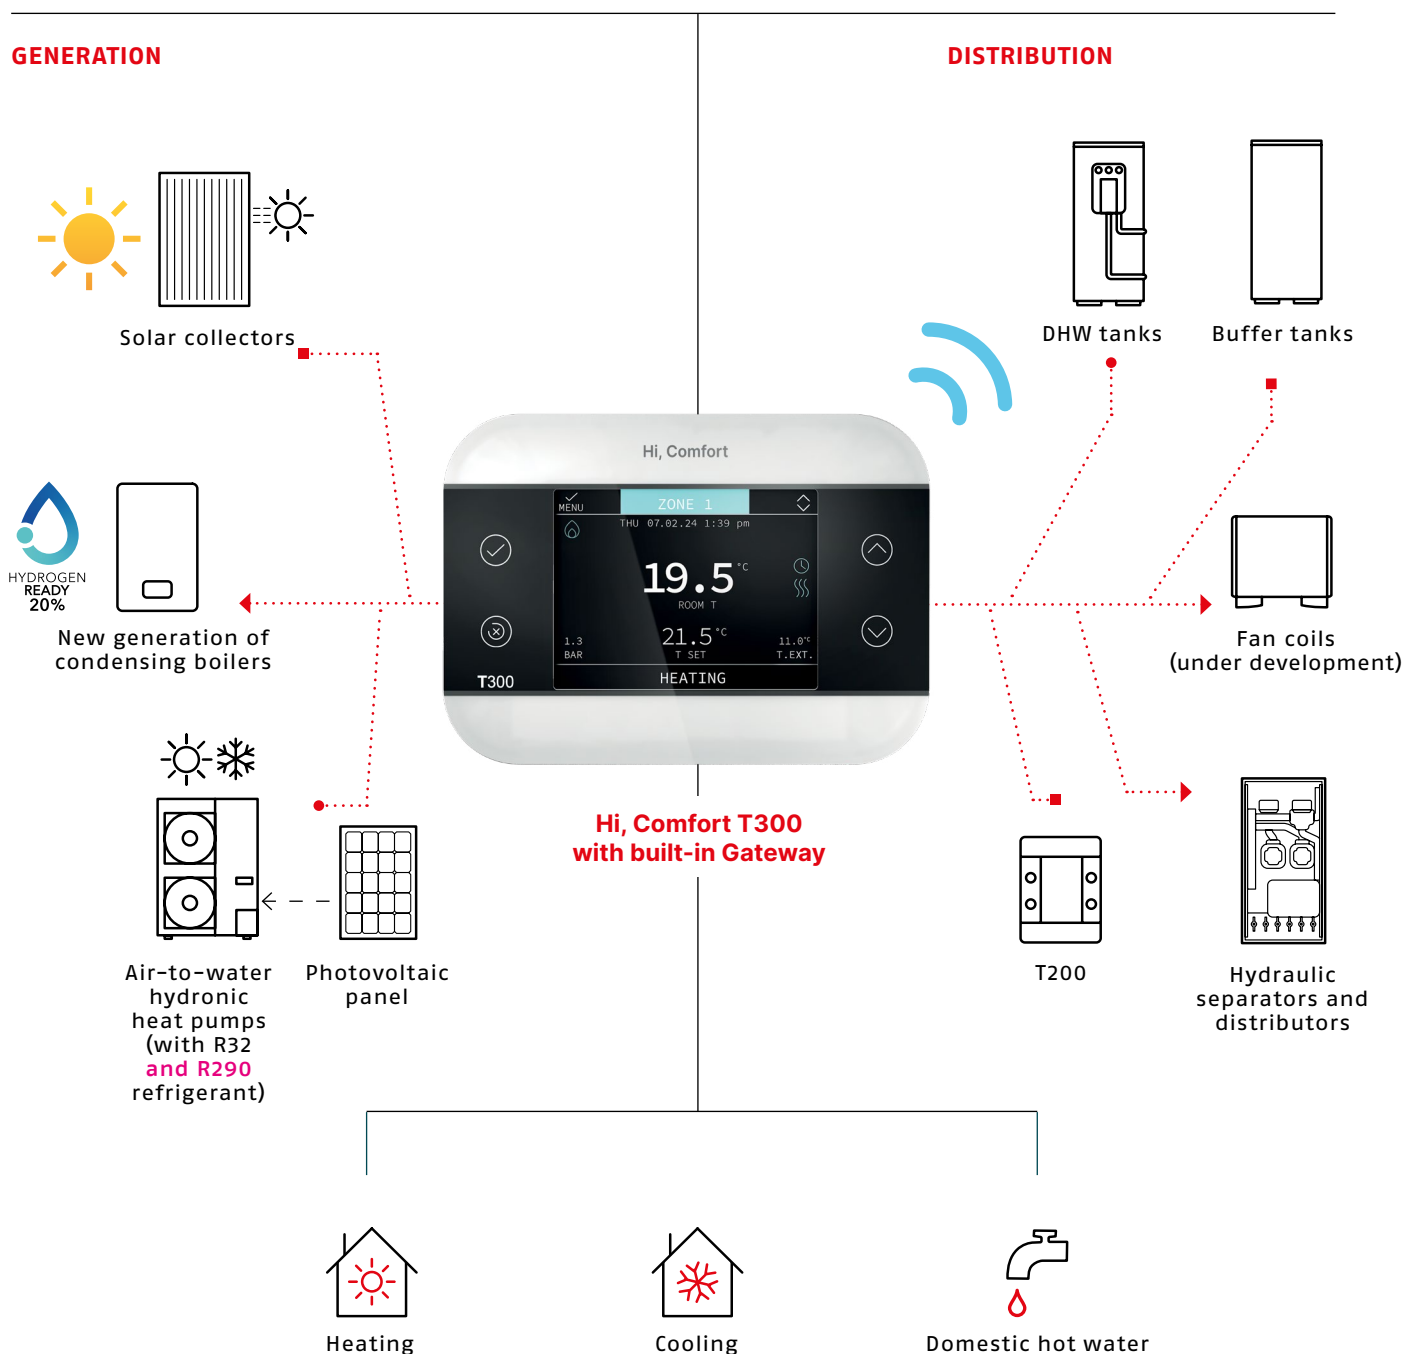

TYPICAL SYSTEM CONFIGURATION DIAGRAM WITH T300

Hi, Comfort T300 is in communication via ModBUS with the heating and cooling generation section (boiler and heat pump) and in wireless (radio) communication with any Hi, Comfort T200 for local control. With the built-in gateway it then connects to the home router to provide Internet access and use of Hi, Comfort App.

Hi, Comfort T300 IN HYBRID SYSTEMS

Hi, Comfort T300, with integrated gateway, can manage up to 3 zones via expansion PCB and, in the case of hybrid installation, operates as a true System Manager for consumption optimization. All this is also via the Hi, Comfort App. Hi, Comfort T300 is compatible with the latest generation boilers and heat pumps for optimized home comfort management even in hybrid installations. The screen graphics of Hi, Comfort T300 are completely new, easy to read and do not tire the eyes. The icons are self-explanatory while the menu tree reproduces the configuration logic of Riello's traditional thermostats.

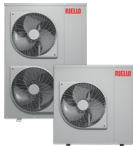

NB: Hi, Comfort T300 is compatible with some specific products in Riello's offering for hybrid systems. Please refer to the Product Catalog.

Hi, Comfort T200, FOR TAILORED COMFORT

Hi, Comfort T200 is a new accessory that, combined in RF with the Hi, Comfort T300 advanced room control, allows optimal control of comfort within each room of the home. Equipped with an innovative design and touch key technology for menu navigation, it offers a dual installation solution: wall-mounted, or, by using a dedicated support, placed on any piece of furniture in the room. It is also compatible with Hi, Comfort App.

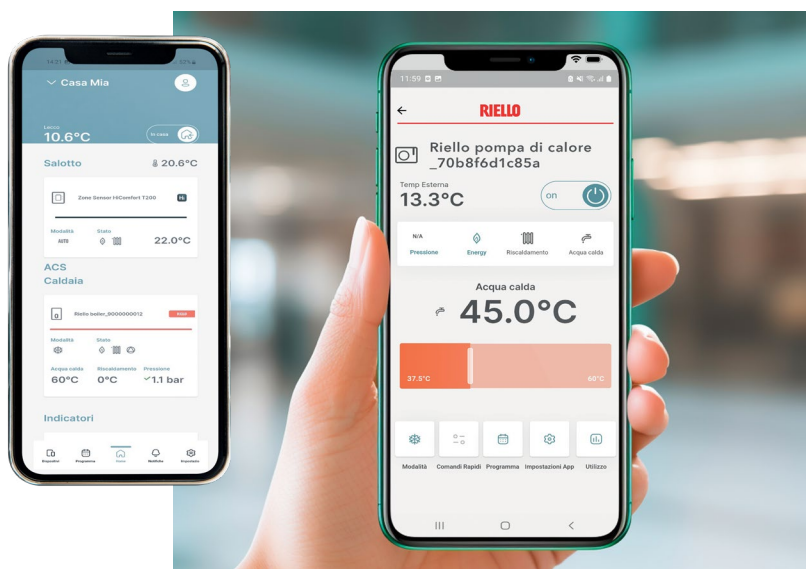

T300 COMPATIBILITY TABLE WITH RIELLO OFFER

		WALL-HUNG BOILER		HEAT PUMP			IOT
 T300	FULL GAS						✓

		RESIDENCE HM	FAMILY HM	NXHP	NXHM	FAMILY SPRINT	

*Hi, Comfort T300 is compatible with some specific products in Riello's offering for hybrid systems. Consult the Product Catalog for the possible combinations between boiler and heat pump.

PROPRIETARY APP Hi, Comfort T300

Hi, Comfort T300, as well as advanced remote comfort management functions of individual compatible Riello products, can also control an entire system via App, in a simple and intuitive way.

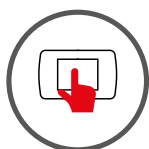

Hi, Comfort T100 YOUR COMFORT AT YOUR FINGERTIPS

Hi Comfort T100 can be used as a traditional thermostat or in smart mode through the Hi, Comfort App when combined with its Wi-Fi Box Hi, Comfort G100-W.

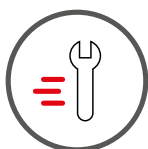

The App is free to download for Android and iOS systems and allows users to monitor states, remotely set domestic hot water temperature, and define boiler settings easily and securely. Furthermore, installing Hi, Comfort T100 is quick and easy and, in case of replacing an old thermostat, it does not require interventions on the home's electrical system.

Hi, Comfort T100, which is battery-powered, also allows for "wireless" installation if you equip the system with a radio frequency receiver.

- Complete control with backlit display for managing home comfort, even remotely with Smartphone and Tablet
- Modern and easy-to-use App with innovative functions
- Remote control of Riello boilers in advanced mode and of all boilers in ON/OFF mode
- Versatile communication: ON/OFF and OTBus both wired and wireless

ADVANCED SMART CONTROL

Hi, Comfort APP

FOCUS ON WELL-BEING RESPECTING THE ENVIRONMENT

Hi, Comfort is the app designed and created to make managing your home comfort easy. You will be surprised by how simple it is to install and use: thanks to its user-friendly icons, you can intuitively access all its features.

ALL THE SIMPLICITY OF HI, COMFORT ALWAYS AT YOUR FINGERTIPS

Hi, Comfort cares about your home's well-being and helps to avoid unnecessary energy waste, ensuring increasingly green comfort: with Hi, Comfort, benefiting the environment translates into financial savings! Start conveniently managing your heating system remotely, wherever you are and at any time.

UNIVERSAL COMPATIBILITY

The Hi, Comfort app is compatible with a wide range of products (continuously updated) and works across multiple residential heating solutions. Thanks to its universality, you can monitor your home remotely and without restrictions.

SAFETY AND RELIABILITY

Hi, Comfort is the trustful app: it offers safe and convenient solutions for home comfort, respecting the environment. With Hi, Comfort, you can keep a check on the operating status of your products. Thanks to error reporting, you can quickly resolve any issues with your heating system.

Hi, Comfort

FROM NOW,
MANAGING YOUR COMFORT
HAS NEVER BEEN SO EASY
THANKS TO HI, COMFORT,
OUR NEW IOT PLATFORM.

The HI, COMFORT platform, which includes new generation of boilers, smart thermostats and App is the beginning of a new era for your comfort.
