## **Riello Array Boiler Wins Industry Awards at MCEE Trade Show**

**MISSISSAUGA, Ontario, Canada, May XX, 2019** — [Riello](#) North America is proud to announce that its [Riello Array commercial condensing gas boiler](#) has received two awards at the New Product Competition at the MCEE 2019 Trade Show in Montréal, Québec. These are the first such industry awards for the Riello Group in North America, and represent its commitment to innovation, efficiency and safety in mechanical and electrical installations. Riello Group, a leader in products and services for heating, air conditioning and energy efficiency, is a part of Carrier, a leading global provider of innovative heating, ventilating and air conditioning (HVAC), refrigeration, fire, security and building automation technologies.

The New Product Competition highlights more than 80 new products and technologies representing 13 categories in the Canadian plumbing, hydronics, HVACR, electrical and lighting industries, with winners selected by a panel of industry experts. The Array boiler was the winner of the Hydronic Heating and/or Air Conditioning Products category and was also selected as the 2019 New Product Competition Grand Prize winner.

“The Array Boiler truly represents what is achievable when a manufacturer’s product development team and its sales network collaborate on the design and

development of a product specification, placing the voice of the customer as its priority,” said Ian Lindsay, product and marketing manager, Riello North America. “These awards represent not only the product but the unique connection with our sales network that made it possible.”
